ココル color corrugated paper

Introduction

In the paper world, there are vast diversity of paper and its usage. One of which is color corrugated paper. In Indonesia, the term is more commonly known as **KoKoRu**.

KoKoRu is the high quality products & the pride of the country because it is the first color corrugated paper product in Indonesia. **KoKoRu** is available in two types: **KoKoRu** Hachi (21 x 29.7cm) and **KoKoRu** Ichi (1.3 x 50cm), each are available in many colors variant.

KoKoRu can be used by all ages from children to adults, including parents, teachers, and students. It can also be used for academic purpose especially for arts students who are learning design and architecture.

Different kinds of creative ideas can also be utilized using this product. In addition to its main use for scrapbook activities, cut size cards and other cut size purposes, **KoKoRu** can also be formed into various decorative objects by rolling techniques.

The author hopes that with this guide book, **KoKoRu** would be useful to spur ideas and creativity for all. May this book also generates kokoru's creative communities that uphold the use of domestic products. Good luck.
